NEXT: 'THE DARE DEAD? CATSA! ON THE PROWL? AND WE'RE NOT EVEN AT ISSUE #2 YET! NEXT UP: 'BLOOD IS THICKER!'

Once again: **AMALGAM DELIVERS!!!** We've heard your demands! The comic you hold in your hands is proof of that. The Lethal Ladies who started the whole Nasty Girls craze are finally together in one book and by the team that brought you the epic "Cat Up a Tree," Dan Chichester, Scott

McDaniel, Derek Fisher, and Pat Garrahy. We've decided to fill this lettercolumn with comments from **DARE THE TERMINATOR**, since it was there we received most of your entreaties. So enjoy away!

Dear Amalgam,

Don't make me come to your fancy uptown Park Avenue offices and hurt you, but someone's gotta knock some sense into you guys. Come on! Ever since Dare and Catsai first met all the waaaay back in **DARE THE TERMINATOR** #168, it should have been evident what your next move should be. Here's a clue:

GIVE DARE AND CATSAI THEIR OWN BOOK TOGETHER!!!!!!!!!!!!!!!!!!!!

Did you get that? I hope so, 'cause I really don't want to come up and hurt you, but I will if I have to.

Olaw Marchese
The Netherlands, NJ

Please call off the dogs. We got the message.

Yo, Amalgam,

What's taking so long? What're you guys, crazy or lazy? Why don't Catsai and Dare have their own book yet? I could see if your company had been created just yesterday, but you guys have been around forever. You know it smilin' Stan Schwartz were still editing books on a day-to-day basis he wouldn't let this golden opportunity slip by. He would've had Catsai and Dare together in their own book well before now. Get on it! 'Nuff Afternoon!

Garrett Jones
New York, NY

If it's not physical assault, it's verbal. And it didn't get better when the news leaked of ASSASSINS...

So-called Assassins,

I can't believe you people at Amalgam are giving Dare and Catsai another book to appear in. Let's face it, you're not going to top the great stories by either Frank

O'Neil or J.M. Wolfman. Those were classics. All you're doing now is cashing in on the bad girl craze. I'll be surprised if there's any storytelling in these. I'll bet it'll just be one gratuitous pinup shot after another. You're calling this ASSASSINS? It fits because you're killing off good comics with mercenary stuff like this. I should have seen the trend when you did the "Death of Super-Soldier" stunt only to be followed by that Spider-Boy clone business. I won't even mention this other thing you've got coming, **BULLETS AND BRACELETS**.

Hope you're satisfied—you murdered this comic fan.

Charles J. Rohlfing
Flushing, DE

And you know he's gonna like it once he gets his facts straight like our next informed reader...

Almighty Amalgam,

Is what I'm hearing about this ASSASSINS title true? Dare and Catsai together? All right! And by Dan Chichester and Scott McDaniel! Man, I love what they did with the pair in "Cat Up a Tree." But I'm mad that you decided to go back to Dare and Catsai's old costumes. Dare looked great more exposed. The new costume gave her freedom to move. It made sense for someone who fights like she does to wear something like that. I don't think it was gratuitous. And by the same token, Catsai's new armor was also practical. Look at what her "boyfriend" Dark Claw's got. She needs the protection for that relationship to work.

Again, I can't be happier with the team on this, especially McDaniel. With his moody pencils this book will have the class and right atmosphere for the Lethal Ladies' adventures, and you'll avoid the bad girl controversy that poor Jim Balent had to deal with on CATSAI. So what if he made her ears too big.

This is one happy Amalgamite!

Kimberly Warren
Derby, CT

Thanks, Kim. You should have a talk with Ron Harrison about those costumes before the release of issue #6, which will

make one of you real happy, and the other, well...I'll just go duck and cover now.

Guys,

If what my local comic shop dealer says is true, I got a couple of questions about this new **DARE/CATSAI** book:

1) Will we be seeing Winterstick again? She did a great job teaching Dare. Think of what new tricks she could get Catsai to do.

2) Anything more about that alleged mutant daughter of Dare's?

3) Is there going to be a romantic triangle between Dare, Catsai and Dark Claw?

4) Will Lethal be going claw to claw with Catsai? Which leads to...

5) When will this duo meet up with Wander Woman?

Mike Kenfield
Dearborn, MI

Who are you? The "Little Question"? Anyway, here goes...

1) The old girl wasn't doing too well in those last few issues of Dare's own book, and besides, do you really think Catsai would listen to anyone much less do tricks for them?

2) Well, Dare was forced to kill Jericha back in **MUTANT TITANS** #83 during the finale of "Mutant Hunt." But Terra-X is still running around, so if not here, maybe in **JLX** some new revelations may crop up as the "Age of Doomsday" approaches.

3) Hardly. We don't know what to make of Catsai's relationship with Dark Claw, which has its own triangle already with Bruce Wayne, Agent of S.H.I.E.L.D. Dare and Dark Claw can hardly be in the same room without trying to kill each other, but come to think of it, isn't that what love's all about?

4) This very issue. Too bad for Lethal.

5) Ororo is in big trouble with the gods this month, which is way out of the league of our girls. But we have something coming up real soon involving Dr. Strange that may bring Diana into it, and how far can her Amazon sister be then?

—Kevin Berganza
MEEEOOWRR

NEXT ISSUE: It ain't over till the fat cat sings. Is Catsai really dead? Will Dare avenge her? You think our next issue's visit from Strange will give hope? Think again. But be here.

CARWALD'S CORNERBOX

Greetings, Amalgamaniacs! This is the month it happens—where the Amalgam Universe bursts wide open and we launch twelve (count'em-twelve) new titles featuring some of your favorite Amalgamated superstars in their own titles at last! This is a comic book counterrevolution and you, sensation-seekers, are getting in on ground zero!

We could heap on more hype, but instead we'd like to shift gears a moment and talk about something truly important in the cosmic scheme—namely, brotherhood. Friends, go out and make an effort to get along with someone whose ethnicity, religion, political affiliation, or comic book preference is unlike your own. After all, we're all passengers on the same planet going 'round, and when it gets down to it, everybody wants the same basic things out of life. So let's each do our part to make the ride go a bit smoother. Says ul!

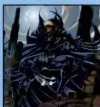

Now, with that off our chest, we want to remind you, the second wave of the Amalgam Era of Comics is now upon us! And it wouldn't be happening if you mighty Amalgamites didn't demand it. Accelerate!
